Script-Controlled ACL | ServiceNow Micro Project

Project demonstration video (Google Drive). Click the link below to watch.

Link: https://drive.google.com/file/d/1n8x1UqcTNzryUGS_B05dyz3aVjXdmerA/view?usp=drivesdk

What the demo should show

- Creating the incident_manager role and the ACL with its script.
- Impersonating the manager and assignee: Priority 1 incident opens.
- Impersonating an unrelated fulfiller: Priority 1 incident is blocked.
- Changing an incident to Priority 1 and showing access removed.
